

Principal Engineer (Suspension)

Development Engineering & Enterprise Ltd

Established in 2005, Development Engineering & Enterprise Ltd (DEE-Ltd) provides innovative engineering solutions to a broad spectrum of customers and market sectors.

Due to the growth of the company we are looking to expand our engineering team and are actively seeking dedicated individuals to support a range of customer focused development projects.

Role Type

Full Time – Permanent

Principal Engineer

This is an excellent opportunity to work for a professional engineering company that offers a great working environment to deliver excellent customer service. To apply for this role you will be hard-working, passionate and reliable. In return the job offers a great basic salary and earning potential.

Your responsibilities will include:

- Design & Development of suspension systems and components from concept through to volume production
- Working with internal departments and suppliers to provide engineering design and problem solving activities to support internal and customer projects
- Creation and management of supporting engineering documentation including FMEAs and DVPs.
- Engineering change control management
- Generation and presentation of project status reports
- Development of hand calculations and spreadsheets to support product development
- Travel between customer sites and suppliers within the UK and Europe and suppliers within the UK and Europe

Candidates will have excellent SolidWorks skills, with HND, degree or relevant manufacturing background, ideally with a minimum of 3 years' experience in an automotive development field. This position requires a dynamic individual with excellent interpersonal and communication skills who is self-motivated and able to work as part of an integrated team. They will be passionate, enthusiastic, confident and personable with the ability to deliver to high standard under critical time restraints.

Remuneration

Successful candidates will receive a highly competitive starting salary with opportunity for professional development and a range of benefits that will include the following:

- Competitive Salary dependent on experience
- 40 Hours working week
- 24 days annual paid leave (increasing with service)
- Pension

Essentials

- This role is only open to current UK Residents or those with an established right to work in the UK. Please do not apply if you do not currently have right to work in the UK as we will not be able to progress your application.
- Track record in the development of Suspension systems
- Ability to lead a multi-disciplined project team.
- Excellent commercial and technical acumen
- Enthusiastic, confident and personable.
- Degree qualified in a relevant engineering field.
- MS Office skills including Project, Excel, Word, PowerPoint and Outlook.
- Able to work independently or as part of an integrated team.
- Full driving license.

Desirables

- CAD Experience, either SolidWorks or CATIA.
- Chartered Engineer.

If you want to be part of a genuinely friendly and professional team, with a passion to deliver excellent customer service then we would welcome the chance to discuss this opportunity with you.

Applications

If you believe you have the skill set and the enthusiasm for this role please send your CV to info@dee-ltd.co.uk Please quote Reference PESUSP-2305.
